RULES FOR INSPECTION.

A Circular to the Employes of the Central.

THE GRADE OF WATCH REQUIRED.

The Katy Buys a Link Line Engine and Inspects the Other Property. Practical Route Westward.

Chief Watch Inspector L. Lechenger of the Houston and Texas Central has ad- Traffic association: dressed the following circular to the em-

the Houston and Texas Central has addressed the following circular to the employes:

Having been appointed official watch inspector, I take this opportunity to explain to you the rules and regulations that the inspectors will be governed by.

1. No engineer or conductor can be given a certificate on his watch unless it is a stem winder and setter has a Breget hair spring, adjusted to heat, cold and position, and should be at least equal in make and finish to a B. W. Raymond, Elgin or an Appleton & Trary Waitham.

No engineer or conductor, on whose time keeping quality of his watch life and property depend, should object to get a watch equal to the above grades, for the local inspectors as well as the undersigned will be glad to furnish you with one of the above grades of movements in a silverine open face case for \$15 to \$20; in a good twenty year filled open face case from \$25 to \$30. Some employe might have a fine Howard or fine Swies watch, but not having a Breget hair spring a certificate will not be granted; that, however, does het

equal in make and finish to a new model G. M. Wheeler Eigin or P. S. Bartlett Waltham.

One of the above grade movements in a silverine open face case can be bonghi from any of us for \$12.50, and in a good twenty year filled case, open face, from \$17.50 to \$20, and it seems to me thin ne employed should object to this, for it is concelled by all engineers and conductors that they would feel a great deal safer when they have some critical meeting point to make, that theirs as well as their firemen's or brakenen's watches are exactly alke. And other thing to take into consideration. Supposing something occurs to the engineer's or conductors watch white out on their run, whose watch will they depend upon if the brakenan or fireman has no watch? I, therefore, recommend that all firemen and brakenen should have a good watch.

3. No watch shall be given a certificate if it has not been cleaned and offed within twelve months previous.

5. Of course, you are at perfect liberty to buy or have your witches required and the firement and the firement and the content of the conditions with the same price.

6. H. Haboosk, farmerly Kany operator at the conditions with the city and the given a certificate in the case and inspector for their line has been assisting them in examining mitiable and will not give in the city.

8. No watch shall be given a certificate builting of the conditions which is to your advantation of the conditions which is not consideration in the city of the intervent of the conditions which is not consideration.

9. No watch shall be given a certificate in the conditions which are the conditions which is not consideration.

1. No watch shall be given a certificate builting will undoubtedly be erected and in providing will undoubtedly be erected and the conditions which is not considerable maning will indoubtedly be erected and the conditions which is not considerable maning will be speak in the conditions which is not conditions and the conditions while the conditions will indoubtedly be erected and the

anywhere.

2. If an inspector at any point, say Deni. son, has sold or repaired your watch, and you are transferred to any point on the road, if anything occurs with your watch, if you were inspector will take care of it for you free of charge.

1. a right and every month thereafter, local inspections for and every month thereafter, local inspections for one month, giving name of owner, number of case, number of movement and condition of same.

3. With any employe getting a certificate on any watch than the one carried in service, for any employe getting a certificate on any while on duty with a different watch from the one on which he got his certificate fand the one on which he got his

Granger, Texas, December 1. -The Link Line engine "Emzy Taylor," which has been on the track here for the past eighteen months, was sold last week to the Missouri, Kansas and Texas. The tie inspector for the Katy has also been here spector for the Katy has also been here inspecting the Link Line ties. It is likely that that road will purchase these thes also. The engine, ties and other material were sold at public suction last Soptember. The roadbed and other belongings are in the hands of Receiver Moore of Cameron. No one here knows what the Katy's intentions are, but it is generally believed that at the January term of court satisfactors, arrangements will be made so that it will have full control of the Link Line and all belongings. The engine purchased is for construction purposes only. The Katy wants to get into Austin and San Antonio. This is a practical route.

beavy snow had fallen there during the last few days, which was very unusual for that country, and the poorer class of people were suffering.

The people of that republic, while divided in their attitude toward the gold and silver queetions, express satisfaction that the election in the States is over, and believe that when the tidal wave of prospectry sweeps over the country it will reach them. Captain Andrews leaves tonight via the Houston East and West Texas for Texarkana, where he meets Assistant General Passenger Agent Benscoter of the Southern railway at Chattanooga for a tour through Texas.

Rates Adopted.
The following rates have been adopted by the rate committee and approved by the board of administration of the Southwestern

Howard or fine Swiss watch, but not having a Breget hair spring a certificate will not be granted; that, however, does not compel him to buy a new watch, for at an expense of \$1 to \$5 any first-class watch, maker will fit it up with a Breget hair spring.

2. No certificate shall be given to any employe on a watch that i not at least equal in make and finish to a new model G. M. Wheeler Eighn or P. S. Bartlett Waltham.

Paralysis," about eighteen months sentiated taken to the Kary hospital, I's case appearing to be one of the mont loppiess on record, says the Denison Herald. When carried to the hospital, Balbook could not talk intelligently, he could not move a muscle, and all the food he took had to be forced down his threat by the aurese. The case was taken in charge at the hospital may one that had never come under the chestration of the medical profession in this country, and it was considered holeless. After confinement in the hospital for about six months Mr. Babcook was able to leave to be being helped on the trains by his friends. He went to his home in Illinois and took the hospital for lists a year sew, and is countantly gaining in health. He has been out of the hospital for lists a year sew, and is countantly gaining in health. He has been ontof the hospital for lists a year sew, and is countantly gaining in health. He has been ownering for several months and fields his strength increasing steadily. His was a most remarkable case and has attracted the attention of selectific mea all over the country.

Annual Meeting Held.

Denver, December L.—At the annual meeting of the stanholders of the Maxico, Cornavara and Pacific railroad, held in this city, the directors were chosen as follows: I. H. Thompsee, W. O. Staples, Lains Menders, Sparre L. Hedges, Charles Wheeler, Smitiago Menden and Francisco P. Glochica.

The officers for the most An Old Central Employe.

C. Cevor, who until six years ago was an engineer on the Houston and Texas Central, was in Houston Monday en route to Santingo Mendea and Francisco P. Glo-

hing between San Antonio and Palestine for the past few months, now stops at Taylor and returns to San Antonio at 5 10 p. m. It will be discontinued nitogether after January 1. This train was put on for the especial benefit of the San Antonio Express, but as its mission has not proved a success financially it will be discontinued at the expiration of the contract on the date above mentioned.

The Santa Fe Case.

Topeka, Kan., December 1.-Judge Thayer of the United States circuit court of appeals arrived here from St. Louis at noon to all with Federal Judge Foster in noon to all with Federal Judge Foster in the Santa Fe receiverable case. Judge Keeler opened for the plaintiffs. The ques-tion first to be decided is the one of juris-diction. The arguments are based on the plaintiff s motion to remaid the case back to the district court of Jefferson county, which bots forth the case improperly re-moved.

Back from Mexico.

Captain J. C. Andrews. Southwestern passenger agent of the Southern rallway. Southern Rallway company at Jackson, returned yesterday from a trip to Mexico, where he went to work up business for his line. To a Post reporter he said that a

It seems that the railways have agreed with operators on a uniform rate for min-ing, and care are not furnished those mitres paying more than the scale under the joint agreement of the roads and operators. A test case is to be prosecuted.

The Road Had Discriminated.

Austin, Texas, December 1.-The railroad ommission this afternoon, in the case of McFadden Brothers vs. the Chicago, Rook Island and Texas Railroad company, decided that where there are two or more cided that where there are two or more compresses at a given point a railroad company has the right to pick out the press to which it shall deliver cotton for compression, as said railroad company pays for raid compression. The commission finds, however, that the Rock Island is guilty of discrimination against McFadden Brothers in the matter of concentration at Bowle, because it refuses to refund the local rate into Bowle unless the cotton is concentrated at a press in which it is interested, and the matter will be turned over to the sitterney general for attention.

Notes and Personals. n William Poole of a large printing firm of bloago, spent yesterday in Houston.

Trainmaster O. B. Maor of the Katy came down from Smithville yesterday.

John P. Hughes, one of the oldest rail-road contractors in Texas, who spent yesterday in Houston, departed for Forr Worth last night.

City Ticket Agent Fiato of the Horston and Texas Central and Southern Pacific returned yesterday from El Paso, where he accompanied his wife.

The Southwestern Passenger association has refused a rate of one fare, plus \$2, to the Southern Educational association meeting at Mobile, Ala., December 20, 30 and 31.

Commercial Agent Hendricks of the In-ternational, who has been 'renesferred to San Antonio, has been detained in Hous-ton by sickness in his family, but will probably get away today or tomorrow.

Ceionel M. F. Mott of Galveston, chartman of the Masonic Widows, and to plants Home containing, is in the city at the Caritol boiel.

Judge J. H. McLeary of San Abroffs, free den) of the Possal Teory of some land Teory of the land the city of string the Change of Masons.

Grand Ledge of Masons.

Mr. and Mrs. Lewis Morrison are com-fortably to attel at the Capital notel. The massing years at but lightly upon Mr. Morrison, and his warm welcome in Hous-ton escens to rightly mate film.

M. M. Bright, manager for Thomas C. Hrvan, owner of the North Guldy-ston projecty, is in the city in the interest of the North Galviscon inguising for the Ma-sonic Willows and orphans' Home.

Police Officer N. J. King has tendered his resignation to Chief of Police Heim, who will probably return his acceptance in a day or two. Mr. King retires from public life to engage in the commission business, which he will open shortly. He entered police service about three years ago under police service about three years ago under the administration of James H. Pruett, now deceased. King's first work was as a mounted man, riding with Charles Quinn, who attil rides. After some time of mount-ed work Mr. King accured a beat on Main street, which he held until yesterday. By severing his connection with the depart-ment Mr. King takes with him the good will of both supervisors and brother of-ficers. He was at all times diligent, affa-hle and was classed as one of the best men on the force. on the force.

class.

5. Penmanship.
6. Mention two forms of punishment that are improper, giving reasons.
7. Mention the considerations that should receive attention in scatting pupils.
8. State three ends to be attained by the use of objects in teaching.
9. Explain what is meant by the industrie method of mental work.
10. Moral education as treated of in chapter 2. Compages Psychology.

Death of Mrs. Warren. The wife of Mr. John Warren, Sr., died at her home in Hockier yesterday evening

of paralysis in the seventy-second year of ber age. The deceased was the mother of hirs George Ellis of this city and had lived at Hockley for a number of years. She had been afflicted for some time and her death was not unexpected.

IT'S CURES THAT COUNT.

Many so-called remedies are pressed on the public attention on account of their claimed large sales. But sales cannot determine values. Sales simply argue good salesmen, shrewd puffery, or enormous advertising. It's cures that count. It is cures that are counted on by Ayer's Sarsaparilla. Its sales might be boasted. It has the world for its market. But sales prove nothing. We point only to the record of Ayer's Sarsaparilla, as proof of its merit:

"HE THAT WORKS EASILY, WORKS SUCCESSFULLY." CLEAN HOUSE WITH

ACROSS THE CONTINENT. Wheelman Arrives from Chiengo En Route to San Francisco.

At exactly 5:20 o'clock yesterday after-noon a heavy set individual, dressed in a cordurey bicycle suit, stepped into the editorial rooms of The Post and laid his open watch upon the table in front of a report-

er.

The hands marked 5:29 o'clock.

"I simply desire that you register my time," said the heavy set wheelman, "and note the fact that I have just arrived from Chicago."

The meaning of this visit was that the visitor, who gave his name as Leo A. Wenzel, left Chicago on his wheel October 20, under a wager, as he claims, of 12009, to make the trip from Chicago to San Francisco and return within six months.

He says he is proceeding on his journey at the rate of sixty miles per day.

"I wish The Post would say for me,"

said Justice of the Peace Fitze to the court reporter yesterday, "that I propose to run this court on strictly business principles. "I don't propose that my court shall be "I don't propose that my the usual army of bums and hangers on that generally lotter around a justice court waiting to be put on a jury, and I have instructed the constable to steer clear of all chronic jurors in selecting jurymen for my court."

Baptist Revival.
The revival at the Baptist church is progressing nicely, with several conversions each meeting. Last night five accepted the faith and a number were received into the church. The meetings will continue daily at 3 and 7:30 p. in.

THE BOSTONIANS

The favorite Bostonians will play an engagement at Sweeney & Coomba' opera ouse tomorrow night. Extravagant dietion is unnecessary to sound the praises of this most perfect organization. For a long time they have held undisputed sway in the light opera field, and they still easily remain first. The presentation of "Robin Hood" will be made on a most elaborate scale, with special scenery and accessories. It would be carrying coals to Newcastle to add to the laudatory commendation of critical America. The names of Henry Clay Barnabee, William H. MacDonald, Jessie Burtiett Davis, Hilda Clarke, Eugens Cowles, Alice Nielsen, George Frothingham, Josephine Bartlett, William E. Philp, T. Kelley Cole, Gracia Quive, C. R. Landie, Harry Brown, S. L. Studiey, L. B. Merrill, Ray Von Dresser and R. H. Burnside are inseparately connected with the greatest triumph of native light opera.

This year the cast finds some changes. The soprano roles are entrusted in the hands of these talented and beautiful young slogers, Hilda Clarke and Alice Nielsen, while the tener parts are sung by William E. Philp, the great London tenor, who created a furore hare last season in Hilbert & Sullivan's "His Excellency." Hood" will be made on a most elaborate
